

CATALYST_{V4}

THE ART OF PROGRESS

OZONE[®]

CATALYST[™] V4

The Catalyst is the kite for anyone getting into the sport or riders looking for a fun, confidence inspiring kite with ease of use and accessibility at its heart.

The Catalyst V4 is ultra stable and intuitive to launch, land and fly.

OPEN ARC DESIGN

The lightweight one strut design combined with an open arc shape delivers smooth power with amazing light wind capabilities getting you up riding easily.

WIDE WIND RANGE, PROGRESSIVE DE-POWER

The wide wind range and progressive de-power makes riding in variable or gusty conditions comfortable, while great upwind performance gives you more time to spend improving your skills!

FIRST JUMPS!

After the basics have been mastered and you're looking to expand your game, you'll be surprised at the jumping capabilities of the Catalyst.

Smooth lift with precise feedback makes learning your first jumps easy.

RE-LAUNCH IS SIMPLE

By turning the bar or using the re-launch balls on the leader lines the kite rolls over into the re-launch position.

NEW RETRACTING REAR BRIDLE LINE

A new retracting rear bridle line system reduces the chance of line tangles while adding rear line tension when riding sheeted out increasing reactivity to bar inputs

RELEASE SYSTEM

Our time proven Front Line Flag Out release system is simple and effective, it is the same system featured on our entire water kite range.

When the Click-in Loop is released the kite flags out to one front line, immediately releasing all the power from the kite.

FAST FLOW ONE-PUMP

The Fast Flow One-Pump Inflation System makes set up and packing quick and easy.

It features single point inflation/deflation and a high air flow rate between the Strut and Leading Edge, with a clip to seal the hose to prevent unwanted air flow in case of damage.

PROVEN RIP-STOP MATERIAL COMBINATION

The Catalyst features our proven rip-stop material combination. The rip-stop canopy material has an advanced ultra flex coating improving feedback in gustier conditions making for a smoother ride. The technical rip-stop dacron is super tough, used on the Leading Edge and Strut it improves strength, durability and longevity.

CATALYST V4

- Fun, easy and intuitive
- Simple and fast re-launch
- Large wind range
- The kite of choice for entry level to intermediate riders

Wind Range Water:

Wind range is indicative only based on an average rider weight of 80kg. Actual range will vary based on rider skill level and type of board used. Bar size recommended 45CM (4M to 8M), 50CM (10M to 12M), 55CM (14M to 16M).
